### Baileys Interpret at Kenmore House

On October 15th, Bob and Susan Bailey, in their roles as Fielding and Betty Lewis, assisted in interpreting the evolving kitchen venue at Kenmore. Several members of the Board of Trustees as well as key donors were on hand to discuss future funding for the interpretation of this venue. Key to our presentation was the assistance of several members of George Washington's Young Friends, a youth group co-sponsored by the Nolan's and George Washington's Fredericksburg Foundation. The Bailey's and the Nolan's regularly provide interpretation at Kenmore on the 1st Saturday of each month and at Ferry farm the last Saturday of each month.
